

THE PERFECT BLEND OF STYLE AND DURABILITY

The Metro Series is another contemporary slab door design utilizing high pressure laminates (HPL). These high pressure laminates offer a slightly higher impact resistance than Linearity. Offered in a vast array of colors and textures, including high-gloss, the Metro Series is another great collection from Quest Engineering, Inc. Metro doors are paired with matching edgeband and a standard white door back to match the cabinet interior.

HPL - High Pressure Laminate:

- Stands the test of time and looks wonderful
- Available in 20 color choices and 5 gloss finishes at a great value
- Improved impact resistance
