NEW CABnX & CLOzX VIDEO

We are excited for the release of a new video showcasing some beautiful examples of our CABnX and CLOzX products in homes, businesses, and our showrooms. Click below to watch:

CORNER SOLUTIONS

Although angle cabinets are not often seen among frameless, European style cabinetry, one is offered in our catalog. We do want to make you aware of a few design challenges with that cabinet. The angle corner cabinet is designed for adjacent cabinets. When cabinets are placed on each side of the cabinet there will be a 3/16" gap between the doors. When an adjacent cabinet is not possible a Wall End Panel Slab (WEPS) is recommended on the finished side. There will be a 1/8" gap and scribing will be required to flush face of panel with door edge.

View PDFs of our [Angled Corner Cabinet](#) and [Contempo Corner Cabinet](#).

Option open wall cabinet in corner

If there is anything else we can do for you at this time, or if you wish to express any comments or concerns, please feel free to contact me directly at: chris@questcabinets.com or call 262-334-4949 Ext 4499.

Sincerely,

Chris Lefeber
President/CEO
